WAR POSSIBILITY, V.F.W. TOLD

U.S. SEEKS REFUNDS OF RAIL 'OVERCHARGE' ON WARTIME SHIPPING

EXPLOSIVE, AMMUNITION FREIGHT RATES SUBJECT OF NEW I.C.C. ACTION

WASHINGTON, Sept. 4.—(AP)—In a new multi-million dollar action, the government today filed with the Interstate Commerce Commission a claim against the nation's railroads for alleged overcharges on wartime shipments of explosives and ammunition.

The government's complaint, filed by the justice department, does not give any specific figures which the government seeks to recover from 717 railroad companies, but officials estimated that between \$30,000,000 and \$40,000,000 is involved.

Eighth Complaint. The petition to ICC for investigation and a reparations order (for repayment of overcharges) is the eighth in a series of complaints which the justice department has made concerning the wartime freight charges by railroads.

Altogether, hundreds of millions of dollars are involved. The previous complaints alleged overcharges on interior storage of military equipment awaiting shipment overseas, on the hauling of steel and aluminum airplane landing mats, and other items.

Rates Said Unwarranted. The complaint concerning charges for explosives and ammunition movements contend that "the magnitude of the shipments of explosives and the successful safety measures placed in effect by the armed services, and other favorable transportation characteristics, entitled the government to rates much lower than those imposed by the railroads."

Attorney General Clark asserted in a statement that repeated efforts were made by the armed services to obtain lower rates, but that the railroads refused to make a lower rate.

"Our investigation indicates that high explosive and ammunition traffic was most profitable to the railroads," Clark said. "In view of the importance of these shipments, all unreasonably high rates and profits should be recoverable for the people."

REAL ESTATE BOARD PLEADS INNOCENT TO U.S. PRICE CHARGES

WASHINGTON, Sept. 4.—(AP)—The National Association of Real Estate Boards and the Washington Real Estate Board pleaded innocent today to a federal indictment charging violation of the anti-trust laws.

The indictment announced last week charges the two boards conspired to fix commission rates for real estate dealers in the District of Columbia.

William E. Leahy, counsel for the Washington board, and Roger J. Whiteford, attorney for the N.A.R.E.B., were granted permission by Federal Judge Jennings Bailey to withdraw the plea and file an additional plea or other motion by Oct. 15.

The proceedings required less than five minutes. Only counsel for the two organizations were present in court today.

The government also has filed See REALTORS, Page 6.

20-30 MEXICANS HELD IN DEATHS OF CATTLE DISEASE EXPEDITION

MORELIA, Mex., Sept. 4.—(AP)—Government officials reported today that the army had killed between 20 and 30 persons, including one woman, in connection with the ambush slaying of five soldiers, a Mexican veterinarian and a fatal wounding of another soldier investigating foot and mouth disease in western Michoacan state.

Officials said all foot and mouth disease operations in the state had been suspended until "safe conduct" could be guaranteed. Commission workers sent into the state to wipe out the disease through slaughter of infected cattle.

Sole Survivor Dies. Pvt. Cornelio Zaragosa Campos, the only survivor of the ambush by brute farmers Monday, died last night of knife wounds.

The soldier escaped the ambush, and although badly wounded, notified the Zitacuaro military post that the rest of his party, a Captain, four said all foot and mouth disease operations in the state had been suspended until "safe conduct" could be guaranteed.

President Miguel Aleman ordered authorities to pursue vigorously and to prosecute promptly all persons involved in the attack.

Troops Seek Slayers. The government said troops are searching for guilty members of the hundreds of farmers who were reported to have waylaid the de-

Overell Death Case Trial Nears End; Gollum May Talk

SANTA ANA, Calif., Sept. 4.—(AP)—The end of the long drawn out Overell yacht murder trial was in sight today with indications that George (Bud) Gollum, jointly charged with Louise Overell in the deaths of her parents, would take the witness stand in his defense some time next Monday.

Examined in the 17-year-old Gollum, Los Angeles City college pre-medical student, was expected to be brief.

Miss Overell, 18, Gollum's sweetheart and heiress to the estate of her parents, Mr. and Mrs. Walter E. Overell, will tell her story to the jury next Wednesday if her lawyers go through with their announced plan to have her testify.

Court will not be in session next Tuesday, anniversary of California's admission to the Union.

Attorneys estimated that the case may go to the jury a week from next Monday.

Search Under Way For San Antonio Slayer Of Girl

SAN ANTONIO, Sept. 4.—(AP)—Border patrol and immigration officials from Brownsville to El Paso were notified today to be on the alert for a 17-year-old man wanted in connection with the death of Miss Esther Almaguer, 15, whose nude body was found in an abandoned car four miles out on the old Castrovilla road early yesterday.

A complaint charging the youth, Jessie Jimenez, with murder was filed in Justice of the Peace M. D. See SLAYING, Page 12.

3 Brunettes Are Leading Beauty Race

ATLANTIC CITY, N. J., Sept. 4.—(AP)—Good looks and a tropical dance in a white sarong left three brunettes—the Misses Alabama, Miami Beach and New York City—sharing the lead today in the preliminary phase of the 1947 competition for the "Miss America" title.

The good looks carried Alabama's June Elder, of Gadsden, and New York City's Raven Malone to a tie for top honors in the first "bathing suit" preliminary, while the hip-swaying tropical dance gave Miami Beach's srong-clad Pepper Donna Shore the number one spot thus far in the "talent test" preliminary.

Each of the 54 contestants competing for the "Miss America" title will be judged in both the beauty and talent groups before the preliminaries are completed by tomorrow night. Fifteen contestants will remain in the field then, the final winner to be selected Saturday.

G.I. Leave Bonds Cashed Here Now Total Some \$141,000

Payments by two Corsicana banks to World War II veterans below the officers grade through a cashing of terminal leave bonds had soared to \$141,000 at the close of business Wednesday the second day for redemption.

On Tuesday 432 veterans tendered their bonds for payment, took the cash and what interest was due and gave the government back its notes. The first day's total at both banks was \$99,000.

Officials of the First National Bank Wednesday announced that 101 bonds were cashed, valued at \$24,000.

The State National Bank announced cashing of 72 bonds for a total of \$18,000.

Mayor To Discuss Buying Farm Mart Site From B.R.I.

Mayor Hubert T. Braselton planned to confer during the afternoon with a representative of the Burdington-Rock Island Railroad relative to purchasing at East Fourth avenue lot for a farmer's concentrated market place.

Mayor Braselton was authorized by the commission at its regular meeting Tuesday to discuss purchase of the 125x140 foot tract in block 237, at East Fourth and Ninth street.

Curtis Keen, frozen food locker official, who suggested the city buy the land and establish the market, moving peddlers from haphazard street sites to one central location, had told the commission the railroad official-

Parking Meter Company Will Just Have To Do Something About It; City Of Gilmer Puts 'Em In, County Tears 'Em Out At Courthouse

GILMER, Sept. 4.—(AP)—That Ohio outfit better come get their pesky parking meters—that's what all the feudin' and fussin' is about down here.

The city put 'em up and the county took 'em down. Here's the lowdown on the rum-pus that's stirrin' the piney woods of this East Texas town.

On May 1, the city had meters installed in Gilmer. Ninety went up around the courthouse square.

Commissioners Object. The commissioners bridled. "This courthouse square," said they, "is county property. The city can't come on county property putting up parking meters."

Aug. 1 the commissioners ordered the meters removed from the square. They turned the job over to Sheriff Posey Seago.

"Oh, no," said Sheriff Seago. "I didn't put 'em there and I'm not going to take 'em up."

Road Gangs Used. Traffic was light Labor Day—a good day to remove parking meters. Road gangs, under orders from the commissioners, rolled into the square, tore out the meters with sledgehammers.

U.S. GOLD DIVISION UNDER MARSHALL AID PLAN—BEVIN'S IDEA

BRITISH OFFICIAL TELLS AMERICANS DETAILS OF RIDICULOUS PROPOSAL

LONDON, Sept. 4.—(AP)—An authoritative American source said today that Foreign Secretary Ernest Bevin's proposal for redistribution of the Fort Knox gold was, in the British view, to be an integral part of the Marshall plan for aiding European economic recovery.

The informant said Bevin had made the suggestion informally in an exchange with U. S. Ambassador.

COAL STRIKE SPREADS. LONDON, Sept. 4.—(AP)—The wildest strike in the nationalized British coal mines spread to two more pits today, leaving nearly 60,000 men idle and aggravating the British fuel shortage.

A total of 48 pits in Yorkshire were closed by the strike.

Mr. Lewis W. Douglas before announcing it publicly yesterday at the trade union congress in Southport.

In the course of a 70-minute talk today with a group of congressmen who are investigating economic conditions in Britain and Western Europe, the foreign secretary gave several more details of his proposal, this source added.

Bevin's Plan. Bevin's elucidation of his proposal for redistributing U. S. gold stocks came in answer to a question from one of the congressmen and the informant said the foreign secretary abroad these points:

His proposal had the backing of the British government. He believed it was unhealthy and unsound economics, out of harmony with the principles of multilateral trade which the United States herself was urging, for one country to hold most of the world's gold stocks and not use them.

There would be no lasting settlement of Europe's economic difficulties.

VAST STORE OF GOLD AT FT. KNOX MAJOR PART OF U.S. STOCK

WASHINGTON, Sept. 4.—(AP)—The world's biggest pile of gold is back in the vaults at Ft. Knox.

It happened yesterday when Ernest Bevin, the British foreign secretary, suddenly proposed that the United States "redistribute the Fort Knox gold."

Bevin's speech at Southport, England, started a first-class mystery—the mystery of what Bevin meant, how the plan would work, and what good it would do.

Another Associated Press reporter and I spent hours talking with treasury officials and private economists and not a one of them professes to understand exactly what Bevin's plan means.

The speech also revived people's curiosity concerning the monstrous hoard of yellow bars, twelve thousand tons of them, in Kentucky.

Let's say a little about Ft. Knox. 30 miles southwest of Louisville.

First we find that only part of America's gold is there. The governments of the world now hold about \$38,000,000,000 in monetary gold—that is, gold used to back up paper money.

About \$21,800,000,000 of this is owned by the U. S. government. 12 1/2 billion is U. S. stock.

And about \$12,500,000,000 of that is stacked in a heavily-guarded two-story building in a field at Fort Knox.

Decision On Special Session For Europe Due In Next 2 Weeks

SOLON CHARGES MARSHALL EYES GROWING CRISIS

By WILLIAM F. ARBOGAST. WASHINGTON, Sept. 4.—(AP)—Rep. Bender (R-Ohio) contended today that President Truman is creating "synthetic" international crises for political purposes.

A consistent critic of administration foreign policy, Bender said in a statement to the president: "I am trying to create a situation in which his cohorts will argue that we should not change the Democratic mule in midstream."

"I can see only one purpose to Mr. Truman's present course in foreign affairs," Bender said. "That is the political purpose of moving from one international crisis to another in order to establish himself as a leader who should not be abandoned in the midst of a virtual state of war."

Investigation Asked. The Ohio lawmaker added that he has asked Chairman Taber (R-N.Y.) of the house appropriations committee to undertake thorough investigation of what he called "the Truman doctrine" and "the Truman-Marshall doctrine."

There was no immediate administration rebuttal to Bender's statement.

Several congressional committees, including a special group composed of members of the appropriations and armed services committees, already have begun investigations of the situation.

The Marshall plan for European recovery and the Greek-Turkish program designed to block Communist expansion in those countries.

Curbs on Truman Sought. Bender made public his letter to Taber in which he wrote: "It is my belief that in the interests of peace and economical government, the congress at some point in the near future will be obliged to curb the Truman administration's reckless policy of foreign expenditures."

It also will be necessary, he added, to "repeal Mr. Truman's general policy of militarism and vast military expenditures and limit international economic commitments to genuine commercial credits for American goods."

BY JOHN M. HIGHTOWER. WASHINGTON, Sept. 4.—(AP)—Secretary of State Marshall is expected to decide within the next two weeks whether to recommend a special session of congress for emergency action on the European economic crisis.

Marshall's decision, officials said today, probably will be made shortly after George F. Kennan, the secretary's top policy planner, returns from Paris with the latest information from European officials and American authorities there.

Truman Must Decide. The final decision would be up to President Truman. He has said several times that he would not hesitate to recall the lawmakers if the situation required such a step.

Marshall himself is just back from the Rio de Janeiro conference on inter-American defense and is scheduled to appear with Senator Vandenberg (R-Mich) on a 30-minute radio broadcast tonight to report to the nation on the work of the conference.

It appeared certain that once that chore is completed Marshall's attention will be largely devoted to the European crisis. Shortly before the cabinet officer's return by plane to Washington yesterday afternoon, Undersecretary of State Lovett told a news conference that the situation in Europe is getting rapidly worse.

Quick Action Urged. Lovett said he feels certain that before the end of this year the United States will be compelled to face the hard facts of European necessity. He made it clear that reports from American observers at Paris have presented the crisis as much worse than the American government previously had calculated.

The main trouble appears to be that with a shortage of materials essential for continued existence—chief among them grains—European nations are confronted with a dangerously dwindling dollar supply with which to stave off economic collapse. The things they urgently need require heavy dollar expenditures.

Large Attendance Due. National Encampment Director Joseph N. Ford said nearly 60,000 delegates and guests would show up by week's end. This figure would "thoroughly shatter any previous attendance."

Spokesman of the day is Secretary of Defense James V. Forrestal, who is flying here from Washington to speak at a banquet for Louis E. Starr of Portland, Ore., retiring national commander.

This afternoon, Mrs. Edith Nourse Rogers of Massachusetts, chairman of the house veterans committee, was expected to speak. Tonight there will be a torchlight parade through downtown streets by members of the military order of the Cootie, an organization within the VFW.

JUDGE RULES EX-WAG CONVICTED IN JEWEL THEFT DUE FREEDOM

CHARLESTON, W. Va., Sept. 4.—(AP)—Federal Judge Ben Moore ruled today Mrs. Kathleen Nash Duran, "sentenced to life in prison" from the Federal Reformatory for Women where she is serving a five-year term in the Hesse crown jewel theft.

Government attorneys said the court ruled that a final order directing Mrs. Duran's release on a writ of habeas corpus but that it undoubtedly would do so later.

U. S. District Attorney Leslie E. Glavin said he would study the next step the government would take.

It was explained that when the final order is entered, Mrs. Duran's release on bond will follow automatically.

She is now a prisoner at the See MRS. DURAN, Page 6.

EUROPEAN NEED SAID GRAVE ISSUE BUT NO SURPRISE BY EXPERT

By DEWITT MACKENZIE. AP Foreign Affairs Analyst. Ground for anxiety, though not surprising—is American Undersecretary of State Lovett's report in Washington that Europe's economic crisis is developing much faster than expected and that the United States may have to take some kind of emergency action before the end of the year.

Representative Hays, Arkansas Democrat, just back from a European tour, planned to bring home more closely. He told reporters that in all probability it will be necessary for congress to meet before January, "assuming that the Marshall plan will take shape by that time and that we will have something definite and substantial to work on."

Two Causes Seen. Lovett attributes the speedy worsening of the situation to two main causes: (1) The effects of the British economic crisis have been very contagious, he believes. (2) Many countries have had to divert their resources from production to such non-productive purchases as foodstuffs. In this connection their troubles have been added to by such afflictions

OPPOSING IDEAS SEEN THREAT BY GENERAL, WAR PERSONNEL HEAD

BEIGHTLER SAYS STRONG U.S. GREATEST U.N. HOPE IN CONVENTION SPEECH

CLEVELAND, Sept. 4.—(AP)—Maj. Gen. Robert S. Beightler, president of the War Personnel Board, declared today that "with two diametrically opposed ideologies trying to live peacefully together" in a shrunken world "war is certainly a possibility."

Making the first principal address at the opening of the 48th annual encampment of the Veterans of Foreign Wars, Gen. Beightler declared "the greatest hope for a successful United Nations is a prepared United States."

"Dangerous World." The war department official of Ohio's 37th division told convention delegates "it is irrefutable that we continue to exist in a dangerous world. It is a world in which time and distance have been so reduced that no matter what his intentions, everyone is our neighbor. We should know a lot about what he is doing, and must make it a point to care what he does, especially if he is inclined to start war."

Gen. Beightler declared the army "confronted by a personnel turnover of well over 40 per cent, will have to scrape and then scrape some more if it is to continue to man the nation's strategic outposts, let alone carry out essential research, development, supply and training activities at home."

Gen. Beightler said "I think it may surprise you to know, for example, that only about 50 of every 100 volunteers for our new regular army and air force can measure up to today's high enlistment standards."

Large Attendance Due. National Encampment Director Joseph N. Ford said nearly 60,000 delegates and guests would show up by week's end. This figure would "thoroughly shatter any previous attendance."

END OF U.S., RUSSIAN DEADLOCKS IN U.N. FORECAST BY SECRETARY GENERAL LIE IN A.P. INTERVIEW

EDITOR'S NOTE: Here are frankly expressed views of Trygve Lie, secretary-general of the United Nations, on prospects for agreement between Russia and the Western powers. This article by a member of the Associated Press staff regularly reporting the activities of the United Nations, combines these impressions with a personality study based on long association with the subject.

By LAURIE HAUCK. LAKE SUCCESS, Sept. 4.—(AP)—Trygve Lie is approaching one of the most crucial periods in his tenure as secretary-general of the United Nations with a pressing hope of an early break in the East-West deadlock stalling international agreement.

With the 55-nation general assembly opening in two weeks for what some observers choose to call a make-or-break session, Lie is confident at least some of the difficulties between the United States and Russia will be wiped away, he told the Associated Press today.

"Something Will Happen." Lie acknowledged that it was impossible to forecast whether the log-jam would be broken as early as this fall, but he added a conviction that "suddenly something will happen."

Nearing the end of his second year as the world's top international civil servant, the 51-year old Norwegian believes that signing and ratification of all the peace treaties eventually will clear the path for the U. N. to function at top efficiency. He was greatly encouraged by Moscow's recent ratification of the pact with Italy, Hungary, Bulgaria, Romania and Finland.

He is a supporter of the Marshall plan.

Enthusiasm for winter cover crops ran high. Each farmer present set himself an individual goal for planting winter cover crops. Considerable discussion also centered around terrace construction, terrace maintenance and the value of controlling weeds in a pasture improvement program.

How to satisfy school day appetites

By Carol Drake

BUILD A BANANA SCHOOL HOUSE atop each bowl of cereal to start breakfast right the first day of school. Cut half a peeled banana into four logs. Arrange logs in a square; center with berries.

SOAKED PRUNES AND CRISPLY FRIED BACON are a pleasing sandwich-filling duet. Play "Chopsticks" with the chopping knife over them. Moisten mixture with lemon juice. Best on brown bread.

THREE-IN-ONE COOKIES give everyone his favorite flavor. Make up a plain 2 1/2- or 3-cup-flour recipe of drop cookie batter or rolled dough. Divide it into three parts. To one part, add 1/4 teaspoon cinnamon and allspice, and 1/2 cup raisins. To another, add 2 squares melted chocolate. To third, add 1/2 cup shredded coconut. Bake.

THIN, UNPEELED APPLE SLICES between buttered slices of raisin bread equals a sandwich Junior and Sis will be glad to whip up for themselves. Spread with brown sugar, the sandwich is in the blue-ribbon class. Try with a big bowl of bean soup.

SPREAD APPLESAUCE ON hot buttered toast; crispcoons with crisp bacon for a breakfast or lunch snack that's nice to munch on.

If you are planning a farewell party for friends who are moving away to a new home, write for our free leaflet, Farewell Parties. Address your request to Carol Drake, The Homemakers' Bureau, Box 2110, Dept. F.P., San Francisco 26, California.

Carol Drake, Director The Homemakers' Bureau An Extra Safeway Service

P. S. Always pack something crisp into every lunch box. How about carrot or green pepper sticks, nuts, dried apricots and prunes? Sandwiches with generous hearty fillings win Popularity Contests. Have filling half as thick as a slice of bread.

FLYINGEST GOVERNOR

HE LIKES TO GO PLACES AND DO THINGS

The Governor and the helicopter (left) Col. R. Baez, Jr., Maj. A. W. Parrott and Gov. Jester ready to go up.

By DAVE CHEAVEENS

AP Newsfeatures.
AUSTIN, Texas.—Texas Governor Beauford H. Jester likes to go places and do things—if he can ride in an airplane.

Jester, the amiable gentleman-farmer and lawyer who took office as governor of the Lone Star state in January, flew more than 1,000 miles during his first six months in office.

That probably makes him the flyingest governor in the nation. Certainly he is the flyingest governor Texas ever had.

He even took a helicopter ride to celebrate Army Air Forces Day, after flying over the state capital in an army transport to swear in a rookie—all the same day.

Jester flew in an army plane to the national governor's conference at Salt Lake City and he made an air jaunt to Guatemala for his vacation.

If he holds to this rate, he will have flown 80,000 miles before his two-year term is up.

"If something is going on, I like to be there," he explained. "I want to see for myself what the situation is. A governor ought to know first hand what's going on. Texas is so big, the only way to do it and keep my desk at the capitol clear, is to fly."

In April Texas was torn by two major disasters—a tornado in Panhandle, and the Texas City explosion. Both times Jester went swiftly to the scene by air.

A World War I experience gave him confidence in airplanes. He was a company commander in the 90th infantry division and was assigned as a liaison officer between his ground outfit and the 90th air squadron.

He made one traffic study flight in the Blercourt-Verdun region. That was the day after a dinner in which he admits he had said some things about air super-

iority that rankled the fliers. The same day a group of grim-looking young pilots asked if he wanted to go for a spin over the German lines.

"All I could say was 'yes,'" Jester related. "They put me in a single-engine Stearman and the pilot was the daredevil of the outfit. We got through the anti-aircraft fire all right, then we spotted three Fokkers coming in fast. When we got back to the base, I had decided that airplanes were safe. I still think so."

NO TATTLETALE
 Suppose upon a roguish face
 You plainly saw the stains of
 jam,
 And you'd been left to guard the
 place,
 And were as old as now I am,
 When mother asked if all went
 well,
 Would you say "Yes" or would
 you tell?
 Suppose you'd seen a youthful
 check
 Puffed out with candy, much too
 large,
 The mouth so full it couldn't
 speak,
 And you, that afternoon, in
 charge,
 When asked what through the
 day befell,
 Would you remember that to tell?
 O truthful grandpa I would be.
 I want to play the sinner well,
 But everything I chance to see
 I don't believe I have to tell.
 When mother asks me: "Were
 they good?"
 I say they were, and think I
 should.

ed that only thus can it be
 accomplished, they may
 knuckle under, but in the
 absence of inspired leader-
 ship, and after so many
 years of suffering, it will
 not be wondered at if they
 rebel.

WHAT ABOUT LIBRARIES?

Library coverage should
 be planned on a nation-wide
 basis, said Miss Ruth Ersted
 of the Minnesota Depart-
 ment of Education, speaking
 at the annual institute of the
 Graduate Library School in
 Chicago.

The fact that half of the
 children in the United States
 do not have access to a good
 library is the fault of school
 librarians, said Miss Ersted.
 She advocated their taking the
 responsibility for nation-wide
 planning of library service,
 as co-ordination makes for
 money-saving and efficiency
 in libraries as elsewhere.

There is something to be
 said for this theory, but it
 needs examination. The
 country library system has
 met with great success in
 many states, and is giving
 excellent service to rural dis-
 tricts which are without li-
 brary facilities. This system
 supplies constantly changing
 collections to strategically
 placed branches, and oper-
 ates bookmobiles which
 bring the library to the farm-
 house door. A county-size
 organization is more easily
 handled and more personal
 in its application than a na-
 tional set-up could be. States
 not having county library
 service should look into
 those operating in Califor-
 nia, Ohio, New Jersey and
 other states.

AUSTRALIAN IMMIGRANTS

Australia has had a
 change of heart. After do-
 ing her best for years to keep
 immigrants out, she now
 wants them. It is announced
 that the International Refu-
 gee Organization will send
 12,000 displaced persons per
 year from Germany to Aus-
 tralia as long as the supply
 of willing emigrants holds
 out. Immigrants from Great
 Britain will not only be wel-
 comed but will be subsidiz-
 ed.

The war has caused this
 change. For a long time the
 Australians believed that ev-
 ery newcomer took a job
 away from a native citizen,
 or at least threatened his
 rate of pay. Now they be-
 gin to see that the work of
 greater numbers increases
 the prosperity of all. They
 also see that their small
 numbers brought them near
 to conquest by Japan. The
 outside help that saved
 them might not always be
 available. Numbering only
 7,000,000 in an area not far
 below that of the United
 States, they admit that they
 should have at least 20,000-
 000 people.

The Australian contribu-
 tion to the displaced prob-
 lem is less than a drop in the
 bucket. The world will,
 however, welcome a more
 liberal immigration policy
 by a country with the re-
 sources of Australia.

There is also a valuable
 intangible byproduct. New
 loyalties are found to devel-
 op to the new land under
 such circumstances, increas-
 ing the mutual understand-
 ing between old and new
 citizens. The descendants of
 Germans who came here
 in the 1840's are among the
 best Americans we have; so
 are the descendants of Rus-
 sians who came here to get

100 PERCENT OCCUPIED

out from under the Czarist
 government of the nine-
 teenth century. Troubled
 people seeking freedom and
 opportunity appreciate the
 nation which gives them
 both, as we have done and
 as Australia now proposes to
 do. The hosts, also, come to
 appreciate the good quali-
 ties of those to whom they
 have offered a home. People
 of diverse nationalities grow
 up together and help to
 make one world of many.

CIRCUS SALESMANSHIP

What may become a na-
 tion-wide chain of "surplus
 circuses" has become a
 profitable business for a
 company known as "The
 Three GIs" in Seattle and
 Portland. These men, all vet-
 erans of the last war, con-
 ceived the idea of buying up
 war surplus material, amass-
 ing it under a huge tent and
 offering it for sale in the gay
 atmosphere of a mid-way.
 The venture, started a little
 more than a year ago in Se-
 attle, has expanded to Port-
 land as well with four tents
 now utilized. The men mask
 their serious enterprise and
 business brains under a
 screwball selling technique
 that makes play out of the
 whole business for them-
 selves, customers and visit-
 ors. In addition, they are
 making considerable money
 themselves. The business
 now requires that the three
 original incorporators spend
 their time in airplane flights
 about the country to gather
 the surplus items, leaving
 the selling to the staff, all
 veterans, who work in the
 tents as their salesmen.

This is typically an Amer-
 ican set-up. The American
 GI could always clown a bit,
 even in the face of death on
 the battle field. It's good to
 find he can carry over some
 of this merry attitude into
 the world of business,
 which also has its serious
 side. A little judicious fun
 is good lubricant even in
 merchandising.

RELIGIOUS CENSORSHIP

The Boston censors have
 found a new field. The lat-
 est victim is "Dear Judas,"
 a play adapted from a poem
 by the distinguished Califor-
 nia poet, Robinson Jeffers,
 and set to music by Bach.
 The play, says Acting May-
 or John B. Hynes, would of-
 fend the religious beliefs of

many Bostonians; so he bans
 it. He does not suggest that
 those who don't like it
 should stay away.

Censorship on religious
 grounds has never been
 part of the American plan
 of government. The produc-
 ers of the play should get a
 court decision on this men-
 ace to religious freedom.

Russia may trouble a good
 many Americans, though
 most think that war can be
 stayed off. The problem
 that is on people's minds
 most of the time is the cost
 of living. Included in this
 are complications like hous-
 ing, labor and shortages gen-
 erally. The man who can
 solve this fundamental prob-
 lem, will really deserve well
 of his country.

All President Roosevelt's
 friends and official associ-
 ates seem to have written
 about him or to be getting
 ready to do so. The one ex-
 ception so far is Fala.

There seems to be some-
 thing fatal about golf. When
 a man takes up that game,
 he has to get somebody else
 to mow the lawn.

A squeal and a holler, a
 fifty-cent dollar, what makes
 you come so soon? You used
 to buy a dinner; now but a
 toy balloon.

Harold Clayton Horn Rites Held Tuesday

 two real estate organizations, ex-
 ecutive vice-president Herbert U.
 Nelson of the NAREB, and 15
 members and directors of the
 Washington board.

The civil suit asks that provi-
 sions of the construction and by-
 laws of the NAREB and the Wash-
 ington board which require or per-
 mit uniform commission fees be
 declared in violation of the Sher-
 man anti-trust law.
 The criminal indictment of the
 two organizations followed an or-
 der by Attorney General Tom
 Clark for the justice department's
 anti-trust division to track down
 and prosecute any conspiracies to
 maintain or boost the prices of
 food, clothing and housing.

While the indictment dealt only
 with charges of restraint of trade
 in Washington, there have been
 implications that transactions are
 being studied in other states and
 cities across the country.

The Rev. J. Morris Bailey will
 leave on Thursday for Olney,
 where he will conduct a two weeks
 revival meeting.

U. S. Help Favored.
 Lie believes that the United
 States should continue to help the
 rest of the world and feels that
 any other policy would back-fire.
 "The American standard is
 based on exports and internation-
 al trade," he told the Associated
 Press. "Almost all countries
 can't pay in dollars now. Any
 United States help helps the
 United States. It is a form of
 self-help."

As to accusations of leaning too
 far to the left or right in his U.
 N. job, Lie said:

"Doing Impartial Job."
 "I have been criticized from all
 directions. As long as this situa-
 tion continues I feel I am doing
 an impartial job. I have been
 accused by Communists of being
 a traitor to labor. I have been
 called a reactionary. I have been
 labeled a Red devil at the United
 States. I don't care so long as the at-
 tacks come from all sides."

The portly secretary-general
 was criticized when he spoke out
 for the Russian viewpoint in the
 Iranian case last year and again
 last fall when he took the initia-
 tive to advocate action against
 Franco Spain. At another time
 he was assailed for threatening to
 circumvent Russian opposition
 by establishing his own border
 commission in the Balkans.

A man of firm conviction on his
 principles, Lie stands on these
 decisions and says he would act
 again under similar circum-
 stances. As for raising the Span-
 ish issue again this fall, he said
 he was studying developments.
 Aside from his travels, Lie
 spends off hours with his family
 at their home in nearby Forest
 Hills and playing tennis. He
 lives with his wife and two daugh-
 ters.

City officials rushed to the
 scene, protested, but didn't inter-

 meters valued at \$6,000, in the
 courthouse basement.

Mayor Horace V. Davis, claim-
 ing the county officials never had
 made any official protest about
 the meters, announced yesterday:
 "Someone's Gonna Pay."
 "Someone is going to pay for
 the meters that have been bat-
 tered around and perhaps hopelessly
 damaged."

The Karpark Corpark Corpora-
 tion of Cincinnati, Ohio, installed
 the meters on a one year trial
 basis, he said. The corporation
 still owns the meters—it was to
 receive 75 percent of the revenue
 until the purchase price was met.
 But it's not likely those meters
 in the basement are drawn any
 nickles.

And today the city had only one
 announcement:
 "The next move is up to the
 Karpark Corporation."

 tial.

Mrs. Durant contended in her pe-
 tition for the habeas corpus writ
 that the army illegally called her
 back to active duty just before it
 arrested her in Chicago June 3,
 1946.

Judge Moore's 20-page opinion
 ended with this summary:
 "I am of the opinion that the
 court martial proceedings were void
 for lack of jurisdiction."

She was on terminal leave at the
 time after being separated from
 the service as a WAC captain, and
 she pleaded that this made her a
 civilian and not subject to trial by
 court martial.

She also had alleged that the
 army used "third degree methods"
 in getting a confession from her.
 Mrs. Durant's husband, former
 air forces Colonel Jack Durant of
 Washington, also was convicted by
 an army court martial and was sen-
 tenced to dishonorable discharge
 and 15 years at hard labor.

The government contended they

had taken the cache of jewels from
 a Hesse castle where Capt. Durant
 was in charge of an army officers'
 test camp.

FARMERS MARKET IS NEARER HERE AFTER COMMISSION ACTION

Creation of a farmers market—a centralized location where Navarro County agriculturists can sell their products—was a step nearer Wednesday as city officials sought to purchase a piece of land on East Fourth Ave. and Ninth St.

Mayor Hubert T. Braselton was authorized by the City Commission at its regular session Tuesday to deal with a representative of the Burlington-Rock Island Lines, owner of the property, relative to purchasing the 125x140 feet in Block 237.

Should the city purchase the tract, an ordinance prohibiting huckstering on the streets will follow.

James Arthur Greenwood, Ute, Neb., and Jaunita Marsh, Corsicana, were married Tuesday afternoon in the courthouse by Justice of the Peace W. H. Johnson.

Formal Opening Sell Rite Store

Formal opening of the Sell-Rite Store, Inc., 220 North Commerce street, began Thursday and extends through Saturday, three days, Robert Sugar, manager, a former service man, has announced.

This newest dry goods concern for Corsicana occupies the old site of the Ben Goldsmith store. The building has been completely renovated, with new fixtures from the floor to the ceiling.

Sell-Rite is a complete outfitter for the entire family, with ladies ready to wear stressed. All merchandise is new.

FAT SOULS A GREATER GOAL THAN BULGING BANK BALANCE*

Bible Puts Human Values First and Is Not Gentle Toward Wealth -- Living a Large Life in a Small Sphere -- Present World Issue

By WILLIAM T. ELLIS and EARL L. DOUGLASS

Our world is in a struggle between the haves and the have-nots. The basic issues are religious and economic. The names employed are numerous: democracy, socialism, communism, fascism, totalitarianism—but the issue is the same. If we dare venture a long-range prediction it would be that some form of equal distribution of wealth will eventually, made workable by the Christian religion.

It cannot be denied that the Bible is hard on the rich. It roundly criticizes or condemns them from first to last. The most sweeping words of all came from the gentle lips of the Nazareth Carpenter. One passage in the present Lesson, written by James, the brother of Jesus, cries "Come now, ye rich, weep and howl for your miseries that are coming upon you."

Our trouble is less that men have money than that money has men. Money is a good servant, but a poor master. Money-mastered souls tend to shrivel and grow selfish and hard and cruel, judging all things by the money standard. Thus many wealthy persons are paupers in soul.

And they are scared lest their wealth take wings, as it so often does. Suicidees are common among men who have lost their money; they seldom occur among the poor. Mammon is a false god, who betrays his worshippers in their direst need.

Jesus presented a dramatic alternative to mankind: "Ye cannot serve God and Mammon." Either one or the other must claim life's throne alone. But it is possible to serve God with Mammon.

The stewards of wealth who use their possessions for the welfare of man and for the glory of God escape the soul-shrinking curse of gold; they are the "rich toward God"; they regard themselves as stewards rather than owners.

Life in Morieland Motion pictures have added to the world's discontent by portraying a luxuriousness of life that far beyond what the average person knows. The fabulous sums paid actors arouse the discontent of the world's real toilers.

Our "Gaiety money" is hard on character. It is difficult to preserve the essential virtues when freed from the obligations of normal life by the possessions of wealth. Even the Ten Commandments are disregarded by many wealthy men who assume that their money gives them special immunity from the moral law. Whereas in truth the reverse is really the case. "To whom much is given, of him shall much be required." Everybody with great means should be a great sharer.

All of history's satirists have bitterly condemned the selfish rich. Was it Dean Swift who said "You may know what the Lord Almighty thinks of money by the kind of people He gives it to." Even in revolutionary Russia, money has created a new class distinction: officials are highly

paid, with many privileges, while the peasants and workers are in poverty and oppression. Some day the power that is in fat souls will explode and there will be an end of communism.

Robust in Spirit One of the meatiest proverbs in the day's Lesson, and one of great practical value is, "The liberal soul shall be made fat." Now we all know that it is fat souls who shine in generosity and sympathy and charity—that this generation is needing. Large and lusty lives, open-minded to all human need, are the true wealth for which the present times call.

"A man's life consists in the number of things to which he is alive," said Maltille D. Babcock. To be alive only to financial self-interest, and dead to brotherhood and human need and to the clear will of God, is to become little less than a walking corpse. Is not our present world's worst ailment a self-centered personality?

In the Bible, the words "brotherhood" and "brotherly love" are used in a right relationship toward God. Scripture uses the significant phrase, "Rich toward God," that is, abounding in godlike qualities and dwelling in conscious relationship with Him who, though He was rich, yet for our sakes became poor.

Brooding over the present world situation, one discerns the place which the Bible plays in international politics. Already Canada and the United States have personified wonders in wealth-sharing with a needy world. History has no precedent for such international bounty. And our program for a restored Europe is based upon still larger gifts and sacrifice. There will be many lean purses (and fat souls) if the western world contributes as planned to the restoration of Europe and Asia. Perhaps our wealth was entrusted to us that we might thus fulfill a Providential purpose.

SEVEN SENTENCE SERMONS. In the darkest of the black above there's not a devil but believes a God.

—DeFoe. A friend shares my sorrow and makes it but a mole, but he swells my joy and makes it double.

Four County Farm Buildings Are Sold

Four buildings at the Navarro County Farm have been sold for \$1000 to Roy Albritton, County Judge L. L. Powell announced on Tuesday.

The structures, used as guard-houses were sold at auction Monday following a meeting of the commissioners' court which voted unanimously to take bids on the property.

Judge Powell said the buildings would be removed from the farm by the new owner.

DOROTHY LOUISE SOUTHERLAND IS WED TO EMORY D. ESTES, JR., IN CHURCH CEREMONY, STREETMAN

The marriage of Miss Dorothy Louise Southernland, daughter of the Rev. and Mrs. M. C. Southernland of Streetman, to Emory D. Estes, Jr., son of Mr. and Mrs. E. D. Estes of Marshall, was solemnized at the First Baptist Church in Streetman on Sunday, August 31st, at 4 o'clock p. m.

The bride, given in marriage by her father, was attired in a white satin gown designed with modest bodice, petal point sleeves, bouffant skirt with overskirt of net. Her finger-tip veil was attached to a halo of orange blossoms, and her bouquet was fashioned of white roses and carnations tied with white satin ribbon. Her only jewelry was a strand of pearls.

Miss Evelyn Southernland, her junior bridesmaid, wore a frock of pink nylon and carried a small Colonial bouquet of pink asters, the ring-bearer, Arthur Ray Southernland, brother of the bride, carried the rings on a white satin pillow edged with lace.

The best man was Lanier Lott of Baylor University, Waco. The candlelighters were Marshall Southernland, brother of the bride, and W. K. Minor of Marshall, and the ushers were Marshall Southernland of Streetman, W. L. Minor of Marshall, Carlton Gregory of Streetman.

Miss Thelma Jean Estes, sister of the bridegroom, sang "Because" and "Through the Years" with Miss Dorothy Hawthorne of Streetman as accompanist. Miss Hawthorne also played the traditional wedding marches.

The bride's mother wore brown tulle with brown accessories and a small Colonial bouquet of pink asters. The bridegroom wore a two-piece black crepe dress with matching accessories and a corsage of pink carnations.

An informal reception was held at the home of the bride's parents immediately following the ceremony. Tall white baskets of white gladioli adorned the living room where the bride and bridegroom and their parents received the one hundred and fifty guests.

The lace-laid bride's table was centered with a miniature bridal gown of pink satin.

The junior bridesmaids, Carol Le Garrett of Streetman, wore a frock of pink nylon and carried a small Colonial bouquet of pink asters, the ring-bearer, Arthur Ray Southernland, brother of the bride, carried the rings on a white satin pillow edged with lace.

The best man was Lanier Lott of Baylor University, Waco. The candlelighters were Marshall Southernland, brother of the bride, and W. K. Minor of Marshall, and the ushers were Marshall Southernland of Streetman, W. L. Minor of Marshall, Carlton Gregory of Streetman.

Miss Thelma Jean Estes, sister of the bridegroom, sang "Because" and "Through the Years" with Miss Dorothy Hawthorne of Streetman as accompanist. Miss Hawthorne also played the traditional wedding marches.

ties it continental recovery was to depend on never-ending U. S. loans. Gold World Currency.

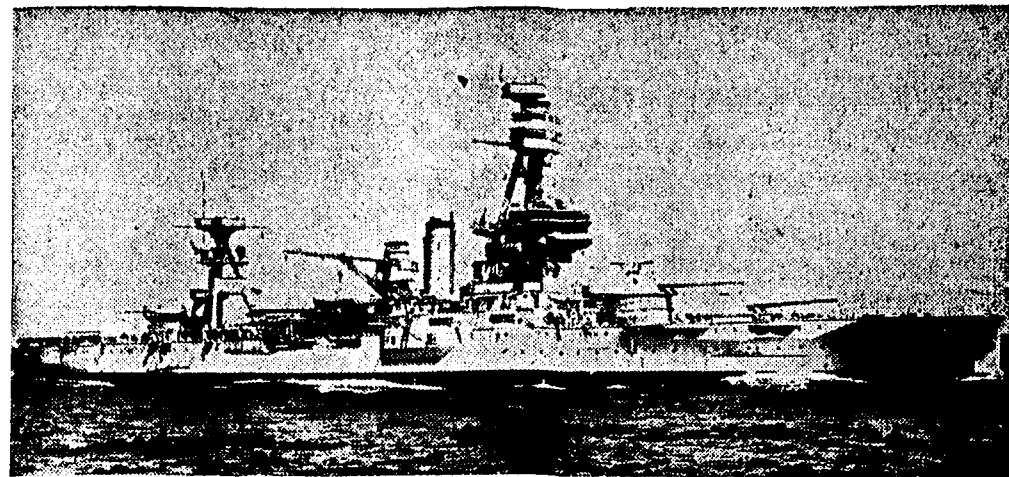

Gold could become the basis of world currency systems and every nation should have access to it. The informant said Bevin's elucidation of his proposal was received "somewhat skeptically" by the U. S. congressmen. A member of the delegation said "it just doesn't make sense."

Ambassador Douglas introduced the legislators to the foreign secretary. Britain, for the most part, received the Bevin proposal placidly. A British treasury spokesman denied reports published in London that Britain had asked the United States for a new credit of \$1,000,000,000.

The reports said the request was made by Sir Wilfrid Eady, treasury expert, who returned recently from Washington. Bevin reviewed the whole world situation for the congressmen, who fired a series of questions at him. Later Bevin was to attend a meeting of the cabinet.

The informant said it was likely new diplomatic exchanges would take place between the foreign office and the U. S. state department on the subject of Bevin's gold plan. Ambassador Douglas was understood to be elaborating details of Bevin's remarks to the congressmen to Washington.

Few of the American legislators who saw the foreign secretary this morning would disclose details of the meeting. The American informant said Bevin's second proposal to the trades union congress yesterday—his call for an empire customs union—was not discussed at today's meeting.

PRIDE OF LONE STAR STATE—A 35-year-old veteran of two world wars and many battle honors, the gallant old Battleship Texas, once a flagship in the U. S. Fleet, now is ready for retirement and wants to come home to Texas. On September 15 a financial drive begins throughout the state to raise \$225,000 needed to bring the battleship to a final berth at the San Jacinto Battlegrounds. The Battleship Texas Commission, set up by the last session of the legislature, urges every Texan to contribute. Contributions are to be mailed to: Allan H. King, Treasurer Battleship Texas Fund, First National Bank, Houston 1, Texas.

as floods and droughts. There also has been mismanagement.

The over-all picture is a grim one. The three main supports of the pre-war European structure—Britain, France and Germany—are badly crippled. The smaller states, who used to depend so heavily on the patronage of the now wounded giants, are struggling along on their own, but there has been little or no coordination of effort among them. Each has

been intent on hoeing its own row.

Depression May Result
And what is all this to us of the new world? Well, quite apart from humanitarian aspects, there are two reasons why the United States has seen fit to intervene and try to help Europe to its feet:

1. Economic experts assure us that a continuation of the crisis must inevitably precipitate an economic depression in the western hemisphere. Just as our frontiers militarily speaking are in Europe, so are our economic frontiers. 2. The crisis is a breeder of war.

This is true because distress and weakness are rendering many unhappy countries susceptible to conquest by aggressive Communism. The longer the crisis lasts, the better the chances are for the Red ism to spread. The more it spreads, the greater the danger of global war.

TEEN TALK

Dear Judy:

Teenagers now have their own night club... in Atlanta, that is. Instead of the usual night club where the customers are served sandwiches and soft drinks. It is a gay, lively spot and the kids love to flock to it. Jitterbug murals decorate the walls and there is constant minimum charge at the club. The

Green Derby, which is open from 8 to 11:30 p. m. Fifteen kids started the club which attracts about 150 on a Saturday night—and now it is really making money.

Wouldn't it be slick if other young people could organize similar attractive headquarters for their evenings out? The Atlanta kids organized it, backed by Junior Achievement, because they wanted a place where "a nice boy could take a nice girl dancing instead of just riding around."

If you like radio programs maybe you can get your local radio station interested in having a special teen-age broadcast like one in which the kids of Houston, Texas, participate. The show is written and produced by experienced radio men who know what the kids like, and the kids really pack the studio. Frequently, talented teen-agers are given an opportunity to appear on the show... and they love it.

Fashion Notes... Newest pajamas for back-to-school teen-agers are made of cotton broadcloth with a pattern of little disks. The kids will love them for afterclass jams or cram sessions. The pajamas come with little tummy coats to match... The Jacksons have become wild on the subject of electric light bow ties... Some of the pigeons wear flowers in the hair which also light by small batteries.

TEEN NEWS
Iowa State Colleges will produce "The Yellow Jacket" this fall with two Chinese students serving as technical advisers.

Suzanne Weller, 14, of Pittsburgh, received the 1947 Humane Act Award at the convention of the American Veterinary Medical Association. Suzanne's \$100 award came as the result of capturing a mad dog which already had bitten 33 children and some adults. She captured the dog, which also had bitten her, and locked it in an empty school room until authorities were notified.

Food for Thought... Studying can be made lots easier if a sweet snack is available while the brain is at work. Homemade fudge or butterscotch are good pick-me-ups in energy value. Or if you really feel ambitious make a tray of ice cream in the refrigerator and you can have an ice cream soda and cracker session. Add a cup of double strength coffee to your regular ice cream recipe and freeze. Then mix 1-2 cups strong cold coffee, 1-2 cup light cream, 1-2 cup light corn syrup to make four tall glasses of ice cream soda. Add scoop of ice cream to each glass and fill with ice cold sparkling water. Yum, you'll say.

HOMES FOR AMERICANS

A cottage with features of a large house designed to be built in sections is pictured here. Architect A. Raymond Ellis, 937 Farmington Ave., West Hartford, Conn., estimates the main structure without porch or garage but with full basement comprises 20,000 cubic feet, a figure that may be used in estimating local building costs. The full building would add two bedrooms upstairs with dormers facing the rear of the house. (AP Newsfeatures.)

Patrolman Currin To Remain In Corsicana

Highway Patrolman Byron O. Currin is remaining in Corsicana and Mrs. Currin will continue as a teacher in the State Home School, it was revealed Thursday. Currin resigned to accept the coaching job at the Wilmer-Hutchins Consolidated School and Mrs. Currin was also elected to that faculty. Inability to find suitable living quarters caused the Currins to decide to remain with their jobs in Corsicana.

Currin, a patrolman the past six years, has been stationed in Corsicana four years and nine months.

SIX DALLAS REALTORS CHARGED IN VETERANS' HOUSING PRICE CASE

DALLAS, Sept. 4.—(AP)—Six Dallas real estate men charged in federal district court here with making false statements to the government in connection with sales of homes to veterans, will have a hearing today.

In each instance it was charged that actual sale prices were higher than the price reported to the Veterans Administration.

FBI agents filed the complaints yesterday and Assistant U. S. Attorney William Cantrell said there probably would be a score or more filed by the time a federal grand jury meets here Sept. 15.

Coffin Plant Strike Dies After 3 Months

DALLAS, Sept. 4.—(AP)—A four-month strike against the Dallas Coffin Company had been called off today and John L. Sproul,

chairman of CIO United Furniture Workers Local 276, announced: "The pickets won't go back. The strike is over—we have found jobs elsewhere."

Eighty-six workers went on strike May 1 as the result of a

dispute over a contract. Company President, Largent Parks said he had restaffed the plant "a few weeks" after the strike began.

ROTARY DISTRICT GOVERNOR SPEAKER AT NOON MEETING

MUST EITHER BE TOLERANT OR DIE, JOHN P. PICKENS DECLARES

Rotary as a powerful factor in world peace—if there is to be a world peace—was stressed by John P. Pickens of Athens, 128th district governor, at the regular Wednesday noon luncheon of the Corsicana Rotary Club at the Navarro Hotel.

Pickens was introduced by John C. Calhoun, former district governor and ex-mayor.

Declaring that the international situation has reached the point where "the time has come to either be tolerant or die," Pickens urged members as individual Rotarians to give time and thought to government—local, state, national.

"A country and its government are no better than the individual," he said.

Must Take Interest.

"It is what we think. Too few have taken an interest in our government. The recent low vote cast in a statewide election was a disgrace to the State of Texas."

The Athens insurance executive, recently elevated to the district governor's post, discussed all of the fundamentals of Rotary.

Particularly did he stress the need of betterment in employee-employer relation.

"Ours is the last place on earth where free enterprise and the

SUIT DEMANDING GOVERNOR CALL SPECIAL SESSION TO OUST SEN. TAYLOR FILED; OTHER CASE OFF

Two moves on the part of Robert V. Yarber, Corsicana, in an effort to have State Senator James E. Taylor removed from office were made her Tuesday afternoon and Wednesday morning.

Yarber filed a mandamus suit against Beauford H. Jester, governor of Texas, in the Thirteenth Judicial district court Tuesday afternoon, seeking to force the chief executive to call a special session of the Texas legislature for the purpose of hearing impeachment charges, according to the petition.

The plaintiff alleges that the state senator, a resident of Kerrville, has violated the constitution of Texas by declining to resign his office after becoming public relations officer of the Texas Manufacturers' Association.

Yarber recently brought a suit against Taylor in district court here, seeking to remove him from the office. This suit was dismissed Wednesday morning by Judge Lex Smith, Eighty-Seventh Judicial District court, who was here in the absence of Judge A. P. Mays, in another case on trial.

The dismissal was made on the motion of Yarber, who said he did not have the jurisdiction in the matter. Yarber said the suit filed to mandamus the governor would be held up for presentation to Judge Mays on his return from a trip.

The petition of the mandamus suit alleges that Taylor "has willfully and maliciously violated Article III, Section 18, of the constitution of the State of Texas."

Yarber also alleges that the state senator with his new position with the manufacturers' association, will attempt to "induct" the school children of Texas with the views of his second master, the Texas Manufacturers' Association.

The Magnolia Petroleum Company was named in the petition as a member of the manufacturers' association, allegedly holding a contract with state and local school boards.

Frost Noses Out Fine Italy Team In Sensational Game

Frost baseball club nosed out the Italy nine, 1-0, in their melee staged under the stars at Frost Monday night as one of the feature events of the annual Homecoming celebration in this North-west Navarro community.

Carroll, speedball hurler of Frost, fanned 17 of the Ellis county batters during the first five cantos.

Italy is regarded as one of the strongest baseball clubs in Ellis county.

The lone tally of the contest was registered in the first inning.

error under Article IV, Section 10, to call the special session, according to the petition.

Taylor's position is attacked by Yarber for the purported existence of specific written contracts to purchase goods or services of at least one member of the Texas Manufacturers' Association with the state board of education and various school boards in the state.

Yarber also alleges that the state senator with his new position with the manufacturers' association, will attempt to "induct" the school children of Texas with the views of his second master, the Texas Manufacturers' Association.

The Magnolia Petroleum Company was named in the petition as a member of the manufacturers' association, allegedly holding a contract with state and local school boards.

BOOSTER TOUR FOR CORSICANA FAIR WAS STAGED WEDNESDAY

A motor caravan advertising the Corsicana Livestock and Agricultural Show, slated for Sept. 16-20, honked and sirened its way down the first leg Wednesday.

Led by state highway patrolmen, fifteen cars and trucks and one bus, only partly filled, got away from Chamber of Commerce headquarters at 8:30 a. m. enroute to Ennis.

The tour, sponsored by the fair association, the Junior Chamber of Commerce, and the senior Chamber of Commerce, will take the boosters to Ennis, Waxahatchie, Italy, Hillsboro, West Waco, Mart, Groesbeck, Mexia, Coolidge, Hubbard and Dawson.

The Blue Sky Play Boys, a Corsicana musical group with a leaning toward boots and saddles, reeled off a few ditties as the trip was being formed. The band will be featured in the stops made at various towns.

The second trip will be Sept. 10, and will carry the fair advertising into the East Texas area.

Co-chairmen of the trips are Tom Paschal and Virgil Reece.

Join College Faculty

CALVERT, Sept. 2.—(Spl.)—Miss Thelma Conitz has accepted a position as instructor of commercial subjects at Navarro Junior College, Corsicana, and will begin her work there in the near future.

Miss Conitz, daughter of Mr. and Mrs. Emil Conitz, returned this week from Alpine, where she studied during the summer toward her Masters Degree.

CLUB NEWS

Oak Valley H-D Club.

The Oak Valley Home Demonstration Club met on August 28 with Mrs. Beden Owen.

Mrs. W. A. Earley and Mrs. Jim Cobb gave a demonstration on restoring picture frames. The County Fair was discussed and plans were made for a member to be present each day at the club exhibit.

Twenty-two members and seven visitors were present. Visitors were Mrs. C. E. Love, Mrs. Tom Harris, Miss Callie Harris, Miss Sue Ward, Miss Mary Owen, Mrs. Thomas M. McCormick and Mrs. E. M. Rahm of Benavides.

The next meeting of the club was set for September 11 with Mrs. H. S. Orr.

Emhouse H-D Club

The Emhouse Home Demonstration Club met in their regular club meeting in the home of Mrs. Della Rae Vest on Tuesday afternoon, September 2, with fourteen members and two visitors. Mrs. E. H. Vest and Miss Margie Roderick, present.

The program on "Adequate Wiring" was presented by Miss Margaret Roderick in the form of a picture film. Correct lamps and shades were also shown.

Reports were made by Mrs. John Gillen, council delegate, in regard to the county fair. Plans were being made by the exhibit chairman, Mrs. Elzie Armstrong, for a booth to be entered by the club at the fair.

The next meeting of the club is to be a called meeting. Full attendance is asked because of plans to be discussed.

Frost H-D Club

The Frost Home Demonstration Club met on September 3 with Mrs. A. F. Allen. Fifteen members and two visitors were present.

Miss Margaret Roderick, a representative of the Texas Power and Light Co., was the guest speaker. She also showed a movie of the improvements on farms made possible by electricity.

The next meeting will be with Mrs. O. K. Vinson on October 1.

Students Register, Complete Schedules

A total of 131 seniors registered and completed schedules Tuesday morning at the senior high school, the office of Principal R. A. Armstrong reported, and many more are expected to enroll in the graduating class before classes begin Monday morning.

Vacations and illness probably will cause some students to register later.

At the Junior High School 150 ninth-graders registered. Principals H. C. Allen announced. Juniors will register at the senior high Wednesday and eighth grade students will enroll at junior high.

Rev. William F. Rogan Foundation Director

Rev. William F. Rogan is the new director of the Western Foundation at Texas Technological College, Lubbock, following his recent resignation as pastor of the Central Presbyterian church at Sherman. The new post is a joint work established by the Presbyterian Churches U. S. A. and U. S. to provide religious training for Presbyterian students in tax-supported colleges.

Mrs. Rogan, wife of the new director, is the former Miss Verna Evans, daughter of Mrs. W. W. Evans of Corsicana. A graduate of Corsicana High school and the University of Texas, Mrs. Rogan attended Columbia U. and formerly was home demonstration agent of Sussex county, N. J., for three years. Rev. and Mrs. Rogan resided in Andover, N. J., for several years following their marriage, where Rev. Mr. Rogan was pastor of a Presbyterian church.

WARNING IS SOUNDED AGAINST MALARIA BY STATE HEALTH CHIEF

AUSTIN, Sept. 4.—(Spl.)—Dr. Geo. W. Cox, state health officer, today issued a warning against the danger of malaria following the heavy rainfall, which has finally broken the drought in many sections of the state.

"Malaria will remain a major public health problem as long as breeding places are accessible to the female Anopheles mosquito," Dr. Cox said. "Every household should make sure that there are no tin cans, broken bottles, or other types of rubbish on his premises that will hold water and offer breeding places to this enemy of good health."

Dr. Cox pointed out that in our practice of mosquito control, we are sometimes like the man who locked the stable door after the horse was already stolen; we are content to wait until all our premises are swarming with mosquitoes before we bring ourselves into active warfare against these freemoving agents of malaria transmission.

Dr. Cox further stressed the importance of conserving the public health and preventing the spread of disease in our present crowded housing condition, and he also emphasized the fact that malaria is one of the more de-

illitating diseases, often causing its victim to lose weeks or even months from his regular employment or from school attendance. Said Dr. Cox: "The best cure for malaria is prevention. Make sure your premises are free from any stagnant waters, in which may breed the female Anopheles mosquito that transmits the disease."

Today the U. S. gold that isn't at Fort Knox is in various cities, in buildings owned by the bureau of the mint. For example, \$5,700,000 is at Denver, \$2,000,000,000 is at New York, and \$417,000,000 is at San Francisco.

Gold "Doing Nothing?" Presumably Bevin meant this gold, too. He said "the Fort Knox gold." And he said it "doing nothing."

What is our gold doing, anyhow? Treasury officials say it is part of our money system.

It gives the people confidence, simply by being there. It backs up the currency—though this doesn't mean you can take a dollar bill to the government and get gold for it.

It also shows the rest of the world that if this country should import more goods than we ship to other countries, we have the gold to pay the difference. Gold is accepted as money everywhere.

U. S. Bought Gold.

How did the government get all this gold?

It bought it—some from American mining companies but most of it from other countries. These countries sold their gold for American dollars. Then they used the dollars to buy American goods.

If American gold were "redistributed," it might be given back to foreign governments, so that they could swap it for more dollars, and buy more U. S. goods.

But economists here say that the gold would only find its way back to Fort Knox, and we could accomplish the same purpose by giving them dollars in the first place.

Mr. and Mrs. D. D. Murray left on Wednesday for various points in Arkansas to visit relatives.

CONTINUED FROM FIRST PAGE Jones court. The youth's father was charged with being an accessory after the fact. Officers reported he had taken his son to a bus station and gave him money to leave town.

A verdict of murder by strangulation was returned by Justice of the peace Jerry Bacon.

Discovery of the body followed a telephone report to police from Lackland field army air base that an unidentified taxi driver had seen a man and a woman engaged in a struggle near the highway. Six hours later the sheriff's office was notified that the body had been found.

The car had been driven across a shallow ditch and had crashed into a barbed wire fence, officers reported. The car was smeared with blood and officers expressed the belief that the murder had taken place elsewhere.

Sheriff Owen Kilday of Bexar county and two of his investigators went to Eagle Pass where relatives of the man reside, yesterday afternoon in an effort to pick him up if he attempted to cross the border at that point.

Death of the girl was first attributed to strangulation. An autopsy performed by the county health officer, however, revealed she had died of a cerebral hemorrhage. It was stated her skull had been fractured by a blunt instrument.

Thousands of Morelia residents attended a public demonstration of mourning for the victims last night. The bodies of the six soldiers were brought here for burial with military honors.

The veterinarian's body was sent to Mexico City by army plane where a funeral was attended by officials of the joint U. S.-Mexican commission to combat foot and mouth disease.

In the Ciudad Hidalgo about half of 800 infected or exposed cattle recently were killed and cash indemnities paid. The detachment was to meet with Sankulo farmers to explain again the need to slaughter animals to prevent the spread of the disease and to slaughter the remaining 400 head.

Commission officials reported there had been no signs of trouble during the first slaughter, and that they were convinced outside agitators had incited local farmers to violence.

Plea For Children's Clothing Is Repeated

Children's discarded clothing is greatly needed by the United Charities at this time, according to an announcement by officials of the organization. Mothers are urged to send their children's outgrown clothing to Corsicana High, Junior High, San Houston or St. M. B. Tavis school on Thursday.

It is important that the clothing be sent on Thursday in order that it may be distributed by the opening date of school, which is September 8. Sponsors of the collection stated.

Fire Destroys Bale Of Cotton On Trip

Fire of undetermined origin at noon Monday destroyed a bale of cotton en route to a Kereks farm from the George W. Boyd farm.

A negro employee was towing three bales of seed cotton in trailers behind a tractor when one was discovered aflame. The employee managed to get the burning lint out of the trailer and saved the vehicle, but could not extinguish the burning cotton. The other two bales were uninjured. The accident occurred two miles southwest of Kereks, Mr. Boyd said.

Special Deputy Assessors

Three special deputy assessors were employed this week to write tax receipts which will be mailed to taxpayers throughout Navarro county beginning sometime in October. Tax collector Arnold Armstrong announced Thursday.

Regular staff members will join the special receipt-writers Monday, Armstrong said. Approximately 15,000 receipts will be mailed out this year.

PARKING RULES WILL BE STRICTER UNDER NEW LAW IN TEXAS

(EDITOR'S NOTE: This is the last in a series of four articles explaining in the language of the motorist the principal features of the new traffic laws which will be effective Sept. 5. The following article deals with stopped, standing or parked vehicles.)

By MAC ROY TASHOR
Associated Press Staff

AUSTIN, Sept. 4.—(AP)—Dub L. Parkes, the local yokel whose unattended car hangs in your parking place half an hour while he is slipping java, might find coffee so procured a bit expensive after Sept. 5.

Under the 50th legislature's newly-enacted uniform traffic code which becomes effective today, double-parking is punishable by as much as a \$200 fine. Even the 51 minimum fine is a lot of sugar for coffee.

The new code devotes considerable attention to stopped cars, as well as moving ones in setting up traffic standards, indicating pointedly that car doesn't have to be moving to create a hazard.

Yokel Parkes and all other drivers after Sept. 5 enforcement date must not under ordinary circumstances, except in compliance with the law, stop, stand or park a vehicle at any of the following places:

1. On a sidewalk.
2. In front of a driveway.
3. Within an intersection.
4. Within 15 feet of a fire hydrant.
5. On a crosswalk.
6. Within 20 feet of a crosswalk at an intersection.
7. Within 50 feet of the nearest rail of a railroad crossing.
8. Within 20 feet of a fire station driveway entrance.
9. On the roadway side of any parked vehicle.
10. Upon a bridge or other elevated structure or within a highway tunnel.

Stopping, standing or parking a vehicle on the paved or main-traveled part of a highway is unlawful except when the driver or vehicle has been disabled to an extent to require temporarily leaving the vehicle in such position.

Vehicles illegally parked and left unattended may be moved to a place of safety or impounded by law enforcement officers.

All violations subject offenders to the usual fine of a minimum of \$1 to a maximum of \$200.

Grain Futures Climb
CHICAGO, Sept. 4.—(AP)—Both corn and oats made new record highs again on the Board of Trade, but best prices were shaved considerably during the latter part of the session. Wheat was strong and related late selling better than the first grain.

15 commission houses and commercial interests bought wheat, the latter evidently reflecting a reported pickup in domestic flour business.

Corn and oats had a sharp run-up at one time with buying stimulated on a private crop forecast showing further deterioration in corn crop prospects. A car of No. 1 yellow corn sold in 30¢ market at \$2.55 3/4, a new record.

Wheat closed 1 1/4 to 1 3/4 higher, September \$2.93 3/4-1 1/2, corn ended 1 1/4 to 1 1/2 lower, September \$2.50 1/2-1 1/2, and oats were 3/8 lower to 3/8 higher, September \$2.51 3/4-1 1/2.

The new corn record was \$2.51 3/4, made by September, and the new oats record \$1.84 1/4, also made by September.

MEETING SCHEDULED OF COUNTY SCHOOL OFFICIALS SATURDAY

**PLANS FOR YEAR'S WORK
WILL BE COMPLETED,
WATSON ANNOUNCES**

A meeting of all superintendents and principals of schools in Navarro county will be held Saturday at 9:30 a.m. in the courthouse to complete plans for the 1947-48 school year, County Superintendent J. C. Watson announced Tuesday.

Approximately 6,000 students, outside of Corsicana, are expected to enroll for the term which gets under way on Sept. 8 in some of the schools and on Sept. 15 in others, Watson said.

The superintendent urged every school head to attend the meeting Saturday or send a representative. Plans completed.

"The executive committee of the Navarro County Unit of the Texas State Teachers Association has virtually completed plans and arrangements for this year's programs," Watson said in a statement. "They announce that there will be four meetings with an interesting and worthwhile program arranged for each. These meetings will be held on the first Tuesday evening of alternate months beginning in October. The dates of the meetings will be Oct. 7, Dec. 2, Feb. 2, and April 6.

Remember Dates
"School people are urged to mark these dates on their calendars and not to plan other school activities that will conflict."

Watson said it was planned in all Navarro County schools to use the

Office Of County Clerk Busy Place

The office of County Clerk J. Vernon Harwell is doing loads of business as a result of back-to-school movement in Navarro county. All school children who are six years of age must have birth certificates in order to receive state aid, and the rush is on for certified copies from the county clerk.

Veterans attending school under the GI bill also are converging on the clerk for certificates of discharge. If the veteran is married he must produce a certificate of that to claim his wife's dependence and if he has children their birth certificates are necessary for other exemptions and benefits.

"We're really overworked at present," said Harwell. "And to make things worse, my chief deputy (Iva Whitten) is on vacation."

Handbook For Self-Appraisal and Improvement of Elementary Schools. "The program of work in line with recommendations made by the State Department of Education," he added.

Scholastic Census
The scholastic census of Navarro county shows: Common school district—white, 3,326; colored, 417. Independent schools, other than Corsicana—white, 1,761; colored, 685. Corsicana—white, 2,310; colored, 875.

An enrollment of more than 3,500 in the Corsicana public schools has been forecast by W. H. Norwood, superintendent of city schools.

HARRIS AND JACOBS STORE IMPROVEMENTS ARE NOW COMPLETED

An extensive renovation and improvement of the interior of Harris and Jacobs, Fashion Corner, Fifth avenue at Beaton, has been completed, giving this leading establishment one of the finest appointed stores in this area.

The store has been enlarged about 50 percent with the taking over the quarters formerly occupied by the soil conservation headquarters.

New fixtures throughout have been installed, new windows and doors are included, boxes have been removed, all show cases are fluorescent lighted and finished in bleached oak. Celestex ceiling and walls with indirect lighting effects are added features, while the store is air conditioned. The fixtures are designed to give greater floor space. A hostelry bar is also included.

Sixtieth Wedding Anniversary Noted By J. M. Blackburns

Mr. and Mrs. J. M. Blackburn celebrated their 60th wedding anniversary with open house from 4 to 6 o'clock p. m. on Sunday, during which time all members of their immediate family called to extend congratulations.

Mrs. Blackburn, a native of Champagne, Ill., and Mr. Blackburn, a native of Paris, Ill., came to Navarro county soon after their marriage, and have been residents here for the past sixty years.

The lace-laid and mirror-adorned refreshment table held the tiered, rose-embossed wedding cake, which was encircled with pastel summer blossoms and topped with a miniature bride and groom that was used on the honoree's golden anniversary cake ten years ago.

The following members of the Blackburn family shared in the unusual occasion: Mr. and Mrs. D. L. Houston of Wichita Falls; Mr. and Mrs. Nelson Earle and son, Nelson, Jr., of Waco; Mr. and Mrs. H. T. Sparks, Mr. and Mrs. Bill McLaughlin and family, Mr. and Mrs. H. D. Redden and son, John Wesley, Mr. and Mrs. Lynn Adams and Mr. and Mrs. Carlton Hammer and family of Mexia; Mr. and Mrs. P. D. Blackburn and daughter, Rosemary; Mr. and Mrs. E. W. Blackburn and son, Ed, and Miss Ada B. Way. Miss Joyce Franklin was a guest.

The honorees were the recipients of a large number of gifts. The marriage of Miss Vicki Burnett, daughter of Mrs. M. D. Steed of Dallas, to James Harold Trone, son of Mr. and Mrs. J. H. Trone of this city, was solemnized at Highland Park Methodist Church on Sunday August 31st, at noon with the Rev. Marshall Steel as officiant.

The bride was attired in a suit of blonde satin, designed with high neckline, matching button adornment and modified bustle back. She wore a halo hat of brown net and a corsage of pink orchids.

Miss Vicki Burnett was her twin sister's only attendant. She wore a cream de coco styled with side drapery, a halo hat of flowers and net, and a corsage of gardenias. Daniel H. Farr of Waco served as best man.

For a wedding trip to Colorado, the bride wore a suit of Kelly green gabardine with brown accessories. Upon their return, the couple will make their home in Dallas.

Jr. College Urges Early Distributive Education Enrollment

All students interested in taking the distributive education course at Navarro Junior College should enroll as soon as possible, college officials advised Wednesday.

Although registration for the fall semester will not start until Sept. 9, it was pointed out that several desirable part-time employment positions are open in connection with the distributive education course.

It is expected that these places will be filled rapidly.

The course offers the student an opportunity to work three hours per day in a wholesale or retail establishment.

The earlier all interested students enroll the more employment choice he or she will have, it was announced.

Alton Truitt has gone to Denver, Colo., to attend a meeting of Piggy-Wiggly executives and managers.

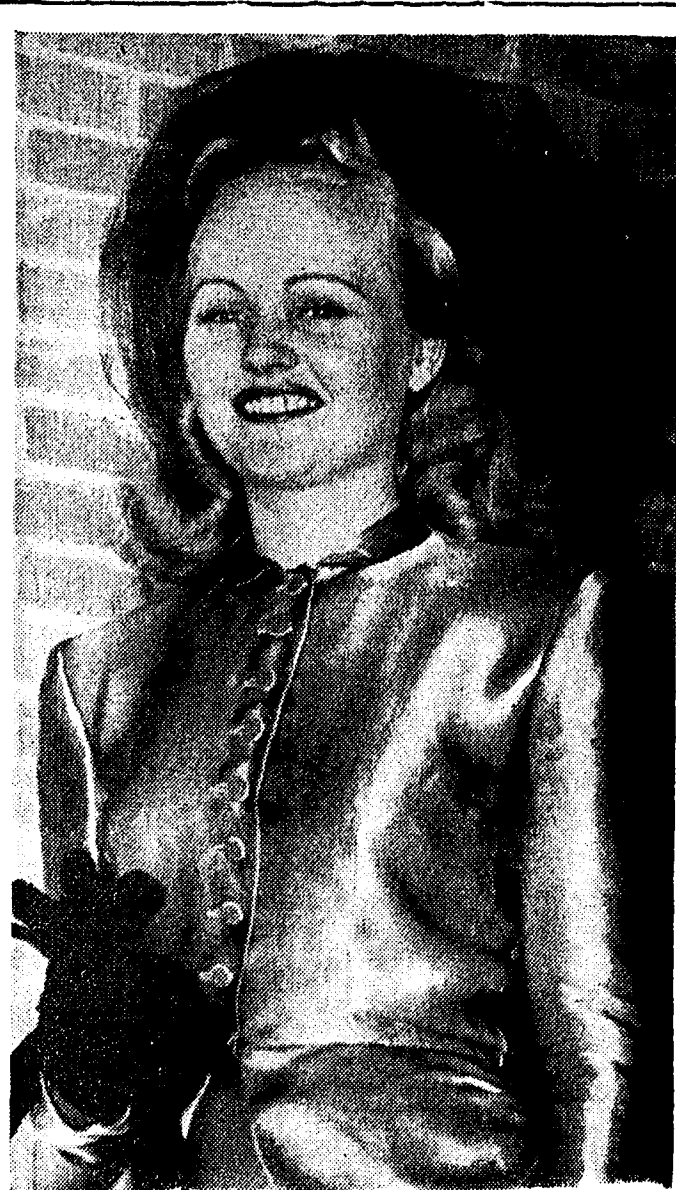

Awarded Pilot Licenses.

Felix R. Jackson, James M. Easley and Art S. Crowley, all of Corsicana, passed their flight examinations and were awarded private pilot's licenses at the Corsicana Municipal Airport Tuesday, Sept. 2.

Rites Held at Marlin.

Funeral services for Mrs. Alice Denise Owen, wife of Ethan S. Owen of Corsicana, who died in a Houston hospital on Saturday, August 30, were held in Marlin last Sunday.

Mr. and Mrs. Owen had resided in Houston for a number of years.

Rites Held at Marlin.

Funeral services for Mrs. Alice Denise Owen, wife of Ethan S. Owen of Corsicana, who died in a Houston hospital on Saturday, August 30, were held in Marlin last Sunday.

Mr. and Mrs. Owen had resided in Houston for a number of years.

Funeral services for Grover Cleveland Rogers, 63, who died Sunday night with a heart attack at his home, 1015 South Twenty-Eighth street, were held Tuesday afternoon at 3 o'clock from the West Side Church of Christ. The rites were conducted by Dan Clark, minister. Burial was in Oakwood cemetery.

Surviving are his wife, two daughters, Mrs. Clyde Heifner and Mrs. N. C. Muns, Jr., all of Corsicana; three grandchildren, and three sisters, Mrs. Josie Hanson, Corsicana; Mrs. Florence Brown, Little Rock, Ark., and Mrs. Angie Jones, Oklahoma City.

Palbearers were Cecil Lloyd Rogers, Paul D. Rogers, Wayne Rogers, Earl V. Wilson, Jr.; R. Lee King and Campbell Jones.

Scrimmage Be Held On Friday Afternoon

A scrimmage session between the Corsicana Tigers and the Athens High School Hornets is slated at the Trinidad High school football field Friday afternoon at 4 o'clock. J. Etheridge King, president of the Dads Club, stated Tuesday. The public is invited to see this exhibition.

King also said that the sale of season tickets gets under way Saturday.

Mr. and Mrs. E. C. Rice were in Frost on Monday evening to attend the annual homecoming celebration.

Mr. and Mrs. Lowry Martin have returned from several days stay in Dallas.

CORSICANANS GO TO ANNUAL REUNION OF FAMOUS THIRTY-SIX

Corsicana and Navarro county are expected to be well represented at Saturday and Sunday at the annual reunion of the famous 36th Division in San Antonio.

Gov. Beauford H. Jester of Texas will be the speaker at the memorial exercises Sunday morning at 11:15 o'clock, while Lt. Gen. Lucian K. Truscott, Jr., U. S. army, native of Chatfield, will be the guest speaker at 11:30 o'clock.

Col. John J. Garner, assistant postmaster, is vice president of the Thirty-Sixth Division Association. Carl L. Phinney of Dallas is president.

Vice President and Mrs. Garner left Thursday for San Antonio. Sgt. Paul H. Miller left Wednesday for San Antonio to be one of the early arrivals. Others from Corsicana and Navarro county are expected to attend, since several units of the famous division are from this county.

Col. Garner has been advised that T. Patches are entitled to other battle stars—one for those in the Anzio Beach area from Jan. 22 to May 24, 1944, and another for those in Alsace between Dec. 16, 1944, and Jan. 25, 1945.

Civil Service Exam

An examination for filling telephone operator positions at basic annual salaries of \$1,954, and \$2,169 was announced today by the U. S. Civil Service Commission. Vacancies are in Washington, D. C. and nearby Maryland and Virginia.

Information and application forms may be secured from the Commission's local secretary, W. C. Galloway, located at the Corsicana postoffice.

Two Fish On Same Line?? It's Done By "Us Experts"

Byram L. Humphries and his wife Carolyn, sat in a boat fishing at Lake Dallas on a Labor Day outing.

The fish, for the moment, were observing the holiday.

Mrs. Humphries, fishing with a dual-hook line, pondered upon the probabilities of nabbing two fish with but a single line.

"Jack," she asked, "did you ever hear of anybody catching two fish at one time?"

"Only experts," he replied. "Just every once in a while experts do that."

Mrs. Humphries felt her line going two directions at once, if that is possible.

"I have two at once," she informed her husband.

"You have one fish, maybe, and some brush," he corrected.

"Two fish," she said, being able to see one.

Then the bottom hook is caught in the bait sack," Humphries explained.

The line came up.

No brush on the bottom hook. No bait sack. Just another fish. "Just as experts," mused Carolyn Humphries.

VICTIM OF HEAT

Raymond L. Long, 23, son of Mrs. Long of Kerens, was recovering Tuesday from heat exhaustion after he was stricken Monday afternoon about 3:30 while picking cotton on a farm near Kerens. He was taken to P. and S. Hospital here. His condition was reported favorable Tuesday.
